usafirmware®
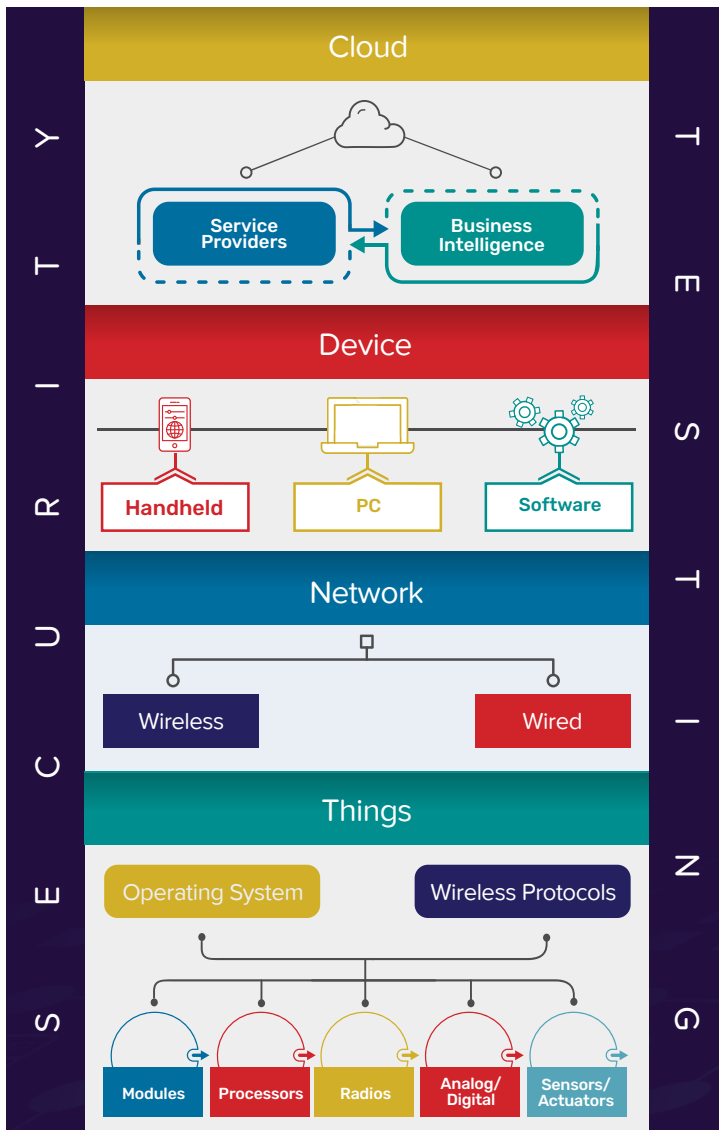

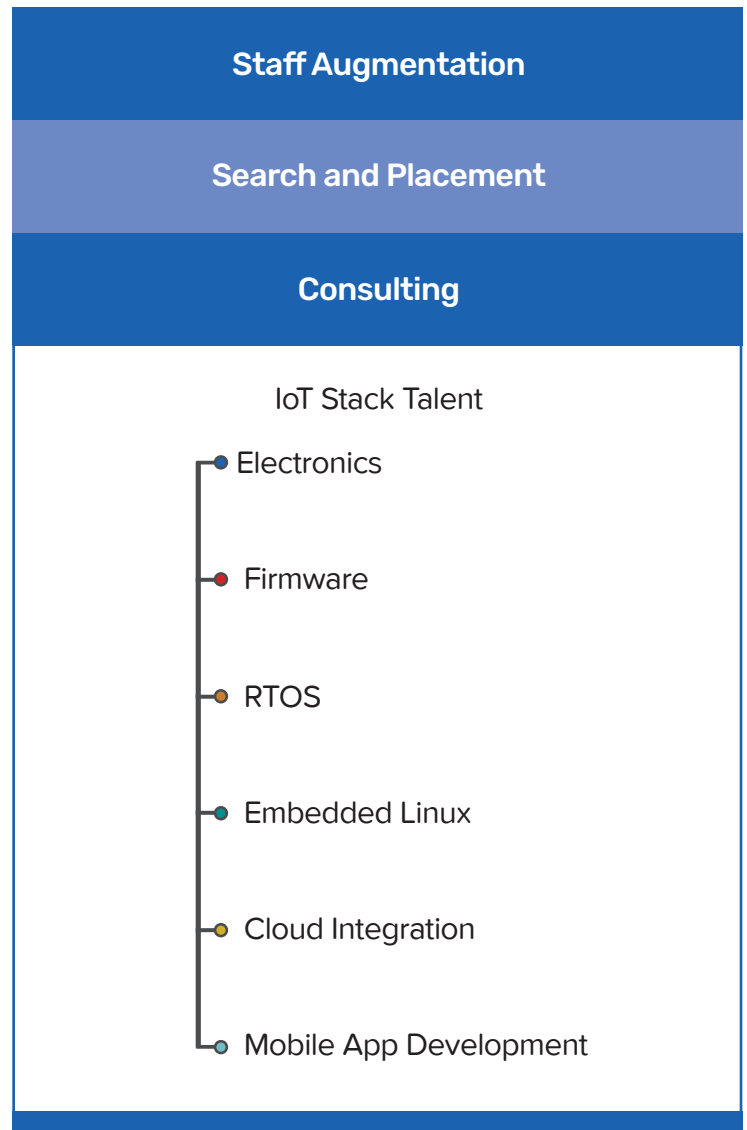

World-Class Embedded Systems

USA Firmware is a Design Services and Talent Solutions company specializing in hardware, software, electronics and embedded firmware.

Design Services

S E C U R I T Y

T E S T I N G

Cloud

- Service Providers
- Business Intelligence

Device

- Handheld
- PC
- Software

Network

- Wireless
- Wired

Things

- Operating System
- Wireless Protocols
  - Modules
  - Processors
  - Radios
  - Analog/Digital
  - Sensors/Actuators

Talent Solutions

Staff Augmentation

Search and Placement

Consulting

IoT Stack Talent

- Electronics
- Firmware
- RTOS
- Embedded Linux
- Cloud Integration
- Mobile App Development

usafirmware®

Why USA Firmware

Onshore Experts

- Assess Complex Problems
- Non-advocate Reviews
- Architecture Optimizations

Continuous Optimization

- Reduce Development Time
- Simplify Architectures
- Cut Sustaining Costs

Engineering Culture

- All NPD Phases
- Creative Execution
- Quality Deliverables

We understand how to bring complex projects to completion.

(ISO/IEC/IEEE 15288:2015)

Concept Stage → Development Stage → Production Stage → Support Stage

USA Firmware Leadership

Bob Scaccia
Founder and CEO

- Firmware Design and Engineering
- System Architecture and Design
- Electrical Engineering

bob.scaccia@usafirmware.com

Bill Merkel
President

- Product Development
- Industrial Automation
- Program Management

bill.merkel@usafirmware.com

Suzanne Nebe Mullenhour
Director of Talent Solutions

- Relationship Management
- Talent Recruiting
- Workforce Development
